

Stoke ERCP & EUS Symposium

13th–14th September 2018
Royal Stoke University Hospital

Save the date

The two day event will aim to address the clinical and technical issues faced during ERCP, including the role of EUS, using a combination of interactive lectures and live case discussion guided by our expert faculty.

External faculty:

Dr. D Nageshwar Reddy, Prof Alessandro Repici, Ross Carter, Kofi Oppong, Ray McCrudden, Manu Nayar, Terry Wardle, Terry Wong, George Webster and other UK ERCP experts.

Live ERCP from three centres:

Royal Stoke University Hospital

Asian Institute of Gastroenterology, Hyderabad

Humanitas Research Hospital, Milan

Topics covered include:

Decision making in ERCP

Role of EUS

Pancreatic endotherapy and sphincter of oddi dysfunction

Biliary access techniques and short wire systems

Ins and outs of bile duct exploration for stone disease

Training and quality assurance

Needle knife sphincterotomy

Difficult stones and dilatation assisted stone extraction (DASE)

ERCP for nurses breakout programme

Bile duct stones - MRCP or EUS?

Stents and strictures

Mechanical lithotripsy and challenges

12 RCP CPD points awarded

We encourage senior trainees and consultants in gastroenterology, hepatobiliary surgery and GI radiology, as well as ERCP radiographers and nurses to attend and benefit from the superb educational opportunities that this course will provide.

Utilising sophisticated audio-visual technology this will be a fantastic opportunity to engage in multidisciplinary discussion with other delegates in a relaxed and informal environment.
